

**SALT LAKE  
COUNTY**

## **SALT LAKE COUNTY LIBRARY SERVICES**

### **Mission Statement**

The mission of Salt Lake County Library Services is to make a positive difference in the lives of our customers by responsively providing materials, information and services at community libraries located throughout the Salt Lake Valley and/or via the Library's World Wide Web site.

The Library accomplishes this mission by:

- Providing books and other materials that will be used to meet the informational, educational and recreational needs of most library users.
- Promoting materials, programs and services which encourage reading and help customers find information.
- Employing technology, both within library buildings and on our Web site, which allows customers access to needed information, databases and services.
- Recruiting, selecting and training staff who are able to meet customers' library service needs.
- Developing policies and procedures that encourage customers to use the library and to take responsibility for their use of library materials and services.
- Providing library services and facilities which are attractive, easy to use, conveniently located and cost effective to operate.

*Adopted by Salt Lake County Library Services Board of Directors at the meeting of April 28, 1997. Reaffirmed by the Board March 24, 2003.*
